## Yearly Plan - Mathematics 9

In September 2021, teachers will be working hard to create a space that is safe and welcoming for all learners no matter the location of their "classroom". The first weeks will still be a time to establish a sense of community, engage learners in rich interactive experiences to promote critical thinking and create opportunities for collaboration and discussion. This is an opportune time to develop a culture and a climate for mathematics learning, conducive to collaboration, risk taking and inquiry.

The following is a yearly plan for Mathematics 9 , which provides an overview of the nine units. It is a reference tool to support teachers with the pacing of yearlong learning. Teachers are encouraged to use their professional judgement and consider the needs of their students when planning for instruction. For the purposes of planning your mathematics lessons, refer to the Mathematics 9 curriculum document and Foundational Outcomes that provides essential background information and describes learning opportunities and assessment tasks for each of the outcomes in the unit.

| The Year at a Glance |  |
| :--- | :--- |
| Unit \# and Title | Unit Outcomes |
| **Develop a Culture and Climate for Mathematics Learning** | Nova Scotia's Inclusive Education Policy |
| Unit 1 Powers and Exponent Laws | N01, N04, N02 |
| Unit 2 Rational Numbers | N03, N04 |
| Unit 3 Square Roots and Surface Area | N05, N06, G01 |
| Unit 4 Linear Relations | PR01, PRO2 |
| Unit 5 Polynomials | PR05, PR06, PR07 |
| Unit 6 Linear Equations and Inequalities | PR03, PR04 |
| Unit 7 Similarity and Transformations | G03, G02, GO4 |
| Unit 8 Circle Geometry | M01 |
| Unit 9 Probability and Statistics | SP04, SP01, SP02, SP03 |
